

BORMAX3

The #1 Carbide Tipped Forstner Bit

- A true carbide tipped Forstner bit
- Carbide centering point
- High cutting quality
- Carbide main cutting edge and carbide teeth
- Less friction, no overheating
- Less power needed
- For use with hand drill & drill press machines

Application: Drilling tear-free and accurate holes in all types of wood: solid wood, soft wood, hard wood, exotic hard wood (also Bongossi), panel materials and plastic laminated boards.
