

- Carbide tipped 2 flute for high performance.
- Six additional ball bearings for different depth options.
- CNC machined, anti kick-back, hardened body for chatter free and safe feed.
- Thick carbide for 10-15 sharpenings.
- Solid wood box for safe storage.

This set allows the user to make rabbet cuts up to 1/2" height and from 1/8" to 9/16 depths.

The cutter comes assembled with 3/8" (BB-10) ball bearing.

Use the supplied Allen key to install any of the other 6 ball bearings to achieve a different rabbet depth.
