

Snappy™ 5 piece Essentials Set

1/4" hex power bit shanks are precision machined to work with Snappy® Quick Change Chucks, as well as impact drivers and other quick change chunks.

2 Combination Countersinks (1/8" x 3/8" & 9/64" x 1/2") Shappy® countersinks will drill the pilot for the screw, as well as countersink for the head of the screw or counterbore for the plug. Made of thru hardened alloy steel. To adjust the bit to match the length of your screw, or to replace the drill, simply loosen the large hardened set screw using the provided allen key.

2x2" Driver Bits (Phillips & Square) Switch from drilling to driving quickly and easily. Square driver features a hardened **insert tip for durability**.

Self-Centering Hinge Bit (7/64") Retractable hardening centers drill bit for pilot holes when mounting hinges, drawer guides, and other hardware. Knurled barrel unscrews for easy cleaning.
