

Straight Bit - Single Flute Solid Carbide

Newly developed line of superior quality solid carbide bits to rout difficult to cut materials particularly in small diameter. Single flute provides fast routing with longer tool life. Suitable for natural wood, wood composites and abrasive plastics.

Straight Bit - 2 Flutes Solid Carbide

Newly developed line of superior quality solid carbide bits to rout difficult to cut materials particularly in small diameter. Suitable for wood composites and thin laminated materials, rigid plastics such as acrylic, PVC and nylon.
